Hi Janette

We have done a check on Workbrain performance with each Hub, and at 12:30 the outcomes are:

Cairns - "Going great, no problems today"

Townsville - "Going really well, happy with changed processes in MVS"

Rockhampton - "Haven't noticed any improvement"

Nambour - "So much better than yesterday"

Chermside - "Much better than it has been"

Mt Gravatt - "Easier to do anything in MVS, speed much improved"

Ipswich - "Quicker to get in to MVS and do all processing"

Toowoomba - "Much quicker to get into MVS, speed is improved, even in leave"

Rick
