I, Nathan Hulse state;

1. I am currently employed as a Workforce Management Consultant by Presence of IT
2. From 2003 I was employed as a Business Analyst by CorpTech, working on the Whole of Government Shared Services Initiative. My role as a Business Analyst was to obtain detailed business requirements from individual departments that would inform the Whole of Government program.
3. From May 2007 to February 2008 I was seconded to the Queensland Police Service to help prepare the business, as part of business readiness activities, for their implementation of the Whole of Government rostering solution.
4. This secondment involved physically transferring to Police Headquarters at Roma Street and operating on the Queensland Police Service network and server. By this I mean that I operated on a Queensland Police Service email address and had access to Queensland Police Service computers only. I did not have access to any CorpTech servers or drives.

- 5. I am aware that while I was on secondment a tender process occurred to select a prime contractor for the Shared Services Initiative. Due to not having access to the CorpTech servers, I did not and could not have seen any material in relation to the tender process before my return to CorpTech in 2008. Further, I do not believe I have ever seen any material in relation to the tender process.
- 6. I know Joseph Sullivan. Mr Sullivan was an IBM contractor within CorpTech that I had worked with prior to my secondment to the Queensland Police Service in May 2007. Mr Sullivan was still working in CorpTech when I returned in February 2008.
- 7. I believe Mr Sullivan was compiling technical estimates for the Whole of Government Workbrain rostering solution.
- 8. Whilst I was on secondment I never contacted Joseph Sullivan or any other IBM contractors within CorpTech.
